PROFESSIONAL SUMMARY

Full Stack Web Developer with a background in healthcare administration and 13+ years of professional experience. Skilled in building responsive, user-focused web applications using JavaScript, React, Node.js, Express.js, SQL, MongoDB, Redux, and REST APIs. Brings strong problem-solving, organization, communication, and collaboration skills developed through healthcare operations and administrative leadership. Experienced in translating user needs into functional solutions and working with data, business processes, and technology.

TECHNICAL SKILLS

Front-End: HTML5 | CSS3 | JavaScript | React | Redux | Redux Toolkit | Vite | React Router DOM

Back-End: Node.js | Express.js | REST APIs

Databases: PostgreSQL/SQL | MongoDB | Sequelize | Mongoose

Development Tools: Git | GitHub | npm | VS Code

PROJECTS

Redux Store

Live Application: redux-store-z27u.onrender.com

GitHub: github.com/elissegomez24/Redux-Store

- Developed a responsive e-commerce application that allows users to browse products, view product details, manage a shopping cart, and complete the checkout process.
- Built the application using React, Redux Toolkit, Vite, React Router DOM, CSS, and API integration.
- Implemented centralized state management with Redux Toolkit to manage shopping cart and application data.
- Created reusable React components and client-side routing to provide streamlined user experience.

Book Search Engine

Live Application: book-search-engine-zwyh.onrender.com

GitHub: github.com/elissegomez24/Book-Search-Engine

- Developed a full-stack book search application that allows users to search and explore books using the Google Books API.
- Built the front end with React, Redux Toolkit, Vite, React Router DOM, and CSS.
- Implemented API integration and state management to retrieve, display, and manage book search results.
- Designed a responsive interface focused on usability and intuitive navigation.

PROFESSIONAL EXPERIENCE

ASPEN DENTAL — Assistant Office Manager

April 2025 – Present | Orlando, FL

- Coordinate daily practice operations, scheduling, insurance verification, chart audits, collections, and patient account activities in a high-volume healthcare environment.

- Work with healthcare software, insurance platforms, and digital systems to identify and resolve claims and workflow issues.
- Analyze operational data and audit findings, identify discrepancies, and communicate solutions to management and providers.
- Supervise staff priorities and daily workflows while supporting employee training, performance, and development.
- Communicate effectively with patients, providers, management, employees, and third-party representatives while maintaining HIPAA compliance.

ADVENTHEALTH — Consumer Access Specialist, Remote
February 2023 – April 2025 | Orlando, FL

- Managed patient demographic, insurance, registration, referral, and authorization information in a high-volume healthcare environment.
- Utilized healthcare and insurance systems to verify eligibility and benefits, obtain prior authorizations, and resolve payer-related issues.
- Identified and corrected demographic, insurance, authorization, and pre-bill errors to support accurate claims and timely patient services.
- Collaborated with internal departments and third-party payers to troubleshoot patient access, referral, authorization, and workflow issues.
- Maintained accuracy, confidentiality, and HIPAA compliance while handling protected health information.

SUPERPOWERSHQ SERVICES, LLC — Executive Assistant, Remote
June 2020 – February 2022 | Orlando, FL

- Managed email, calendars, projects, tasks, accounts, client communications, and business documentation for the CEO.
- Collected, organized, and analyzed data to support vendor documentation and business operations.
- Prepared monthly reports and coordinated multiple projects and deadlines while maintaining accuracy and organization.

VALENCIA COLLEGE — Administrative Assistant
January 2013 – June 2020 | Orlando, FL

- Provided administrative support through data entry, document management, filing, telephone assistance, and general office operations.
- Managed information requests and assisted students, staff, and visitors with courses, programs, and campus resources.
- Trained new staff during onboarding and supported departmental procedures and workflows.
